PROFILE SUMMARY

A biochemist and an educator with analytical skills and a passion for teaching. I am patient, supportive, and dedicated to helping learners build strong foundations. I have hands-on experience in laboratory analysis and research. I am deeply passionate about education and knowledge sharing, with a strong desire to become a lecturer. My career goal is to contribute to academic growth and research development.

EDUCATION

B.Sc. Biochemistry Oct 2021- Aug 2025
Mountain Top University

PROFESSIONAL EXPERIENCE

PZ Cussons – *Quality Assurance/ Quality control staff (Internship)* March 2024 – Oct 2024
•Carried out water and raw material analyses to check quality and suitability for use.
•Hands-on experience using key lab instruments such as a refractometer, viscometer, and pH meter for accurate measurements.
•Developed practical skills in sample handling, data recording, and interpreting results to support quality assurance and research activities

Ramjet schools– *classroom teacher* Aug 2025

- Prepared lesson plans and teaching materials
- Managed classroom activities and student behavior effectively
- Assisted students with assignments and revision
- Communicated well with students to support learning goals.
- Taught students using simple and effective teaching methods
- Supported learners to understand lessons and improve performance
- Adapted teaching style to suit individual learning needs
- Helped students build confidence and interest in learning

SKILLS

Tools & Platforms: Zoom, google meet, E mail.

Personal Skills: Problem-solving, Adaptability, Excellent Communication, Time and project management

Laboratory Skills: Sample handling, Analytical skills, refractometer operation, FTIR s Sample Analysis and Interpretation.
